1:1 iPad Program App List

St Albans Meadows Primary School
2021

Apps for Education

Creating an app list can be a difficult task for a number of reasons. Firstly, the App Store boasts an ever growing amount of Apps, over 2 million at last count. This makes choosing apps to suit the learning and curriculum needs of our school and it's students somewhat challenging.

After much consideration, we have come to realize that students will be the best judges for which apps suit their own learning styles in any given learning situation. As we follow a self-directed inquiry learning approach at St Albans Meadows, we strive to develop independent and critical thinkers. Students will soon work out for themselves which apps work best for them.

Many studies and trials relating to the implementation of iPads into learning environments have reported a greater sense of students taking increased responsibility for their learning, higher personalized learning and increased levels of collaboration.

The app list we have created below is a starting point. The apps have either been used in class or have been recommended by schools who currently implement a 1:1 iPad program.

Please bear in mind that this App list is a work in progress and will continue to grow and change. As new apps are developed and come on to the market, we will add them to the App list as necessary after considering their cost and download size. Please also note that the prices of the apps also fluctuate from time to time and that the prices quoted here are correct at the time of creating this App list.

We are confident that the apps on the list provide students and teachers with a good starting set of tools to use in a teaching and learning capacity with the intention of improving student learning. Please ensure that your iPad has all of the required apps installed and ready for use before the start of the academic year. This enables our teachers to plan and deliver exciting lessons that maximize the learning opportunities for our students. If you have any questions relating to the App list, please do not hesitate to contact us at school.

Thankyou

Allison Webb   Travis Eliopoulos
